Southbank Institute has long been one of Queensland’s leading education centres, providing quality training to around 30,000 students annually on campus, on-the-job and even online. Our three campuses—Southbank, Morningside and Kangaroo Point—are close to cultural centres, Brisbane city, the famous Gold Coast beaches and lush rainforests of the Sunshine Coast. Each campus is fully equipped with state-of-the-art facilities for training graphic arts, multimedia, printing, visual and performing arts. Our main focus is on delivering a progressive, up-to-the-minute education, and our close links to business and industry mean our graduates and trainees have the edge in the workplace. As the ‘epicentre of education’, Southbank Institute is committed to quality, innovation and flexibility. It’s the best place for students of all ages to continue their journey to a brighter future.

AWARDS
Diploma of Live Production, Theatre & Events (Construction & Manufacturing)
1 year full time
www.southbank.edu.au/course/DOM/CUE50103.htm
The program focuses on set and prop construction and scenic art finishing. Beginning to intermediate construction techniques are taught from standard theatre flats with bracing, to using foam-based sculpted approaches for 3-Dimensional finishes. A variety of moulding and casting approaches are explored in the prop making curriculum with emphasis on the construction of urethane rubber based hand puppets.

Advanced Diploma of Arts (Acting)
2.5 years full time
www.southbank.edu.au/course/DOM/40505SA.htm
This program provides students with practical skills and theoretical knowledge to engage in the Performing Arts initially as actors and performance makers. The program prides itself on conducting one of the most stimulating and rigorous programs for the studies of vocal and movement training in performance within state and national tertiary institutions. Strong emphasis is placed on training the physical body, voice, presence and energy of the performer.

Diploma of Music (Performance)
1 year full time
www.southbank.edu.au/course/DOM/CUS50101.htm
This program focuses on rock/pop performance and production. Students will use technology to develop their performance, theory, technical and production skills in a practical and relevant medium. From gigs to contracts, songwriting to midi, this program is designed for the artist who is waiting for the right opportunity to take the next step in the music industry.

Program/Course information
2008
Southbank Institute of Technology
Centre for Arts, Culture & Creative Industries

This program is designed to provide students with the opportunity to develop skills and techniques relevant to employment within the visual arts industry. The program includes core courses of Visual Culture and Professional Practice plus electives in studio areas such as Painting, Sculpture, Printmaking, Digital media, Drawing, Ceramics and Community Projects. Teachers and Tutors in the Visual Arts programs are all professional artists involved with the Visual Art industry, exhibiting their work, undertaking public art commissions and closely involved with the various industry organisations.

Certificate III in Visual Arts and Contemporary Craft
6 months full time/12 months part-time
www.southbank.edu.au/course/DOM/CUV30103.htm
This program is an exciting introduction to Visual Arts Practice. The broad and balanced program will develop your practical skills in painting, drawing, sculpture, digital imaging and photography and also explores how you can develop creative concepts, how you can investigate and understand art and how you can develop a professional arts practice. The program is a hands on exploration into visual culture and your own creativity.

Architecture
SUBJECTS
Built Environment
Environmental Design
Interior Design

AWARDS
Diploma of Building Design & Technology
2 years full-time/4 years part-time
www.southbank.edu.au/course/DOM/40356SA.htm
This program focuses on developing skills using new technology to design, draw and present building plans. Courses include the principles of building construction, interpreting client briefs, building design and drawing plans using manual and computer-generated technical drawings.

Diploma of Interior Technology
2 years full-time/4 years part-time
www.southbank.edu.au/course/DOM/39073QLD.htm
This program provides vocational training in the theoretical and practical aspects of Interior Design for students who wish to enter the industry as a technician. It develops practical skills in planning and undertaking refurbishments based on an interior designer's concept and covers design sketches, construction methodology, manual and computer-generated technical drawings, presentation of design concepts to clients and selection of materials, colour schemes, fabrics, furniture, fixtures and finishes.

Southbank Institute of Technology
Centre for Arts, Culture & Creative Industries

Vocational Graduate Certificate in Architecture
Digital Illustration
1 year part time
www.southbank.edu.au/course/DOM/39157QLD.htm
This program will open up opportunities for learners in digital illustration, acknowledging the way that technology is expanding creative boundaries and emphasises the need for the development of skills in creative technology. The program is designed to demonstrate increased technical understanding of the demands required across the design, creation, development and production of a Digital Architectural Illustration of a major building development.

Advanced Diploma of Building Design & Project Administration
1-2 years online
www.southbank.edu.au/course/DOM/40355SA.htm
This project-based program consists of 4 courses which teaches the skills required for students to work as project team leaders on large projects in a medium to large design office. The program focuses on design, management, presentation and documentation of a major building project.

Architectural Computer Aided Drafting
50 hours part time
www.southbank.edu.au/course/DOM/CAD-ARCH.htm
This program is specifically designed to provide students with Architectural CAD Skills. It develops drawing skills to produce architectural plans using specialized computer programs. The program covers basic skills to use CAD software, produce 2D drawings, 3D models and digital presentations.
